ABSTRACT

A state and congressional district listing of higher education institutions is presented. The institutions offer at least a one-year program of college-level study leading toward a degree and meet accreditation standards required by the Department of Education. The list includes the names of Senators, Representatives, and other elected officials of the 99th Congress, their states and congressional districts, and each institution of higher education located therein. Institutions are identified by control and type, and 1983 enrollment data are included, along with the tuition and fees data for the 1984-85 academic year. Room and board charges are also indicated, along with the number of days per week the college operates. The following categories are included under institutional control: public, nonprofit, and proprietary. Types of institutions include: two-year, general baccalaureate, comprehensive, doctoral-level, special divinity, special engineering, special law, special medicine, special health, special art and music, special education, and newly added. Washington, D.C. 20402

Foreword

The 1984-85 edition of *Institutions of Higher Education: Index by State and Congressional District* lists those institutions in the United States and its outlying areas that are legally authorized to offer and are offering at least a 1-year program of college-level study leading toward a degree. These institutions must also fulfill certain accreditation standards as required by the Department of Education.

This publication was mandated by Congress under P.L. 97-301 Sec. 15, which requires that "The . . . Center . . . shall collect and publish for academic years 1982 through 1985, tuition and fees data, and room and board charges. . . . The results of such surveys shall be stated so as to display such data by congressional district." This report includes the names of the Senators, Representatives, and other elected officials of the 99th Congress, their States and congressional districts, and each institution of higher education located therein. Institutions are identified by control and type, and 1983 enrollment data are included along with the tuition and fees data for the 1984-85 academic year.

Introduction

This publication lists all institutions in the United States and outlying areas (American Samoa, Guam, Northern Mariana Islands, Puerto Rico, the Virgin Islands, and the Trust Territories of the Pacific Islands) that: offer at least a 1-year program of college-level studies leading toward a degree; *and* hold accreditation from one of the recognized national or professional accrediting agencies or associations approved by the Secretary of Education.

Data were collected by the Center for Statistics (formerly the National Center for Education Statistics, or NCES) as part of the Higher Education General Information Survey (HEGIS) program in fall 1984. Responses to the survey ("Institutional Characteristics of Colleges and Universities") were edited for consistency. Tuition and fees information was checked against fall 1983 data for comparability.

Arrangement of Data

The institutions and their branches are listed separately by congressional district within the State in which they are located. The names of Senators and Representatives are included. Institutions were assigned to congressional districts by mailing address or by the location of their main administration building when more than one address was involved.

Explanation of Data

Name and Address. Institution names have been abbreviated slightly to allow for presentation in this format. City locations and zip codes are provided to facilitate contact with the institutions.

Control. The control of each institution is recorded as reported by the institution. Public institutions are those under Federal, State, State-related, local, or State and local control. Private institutions are reported as either: (independent) nonprofit, which includes those with religious affiliation; or proprietary, which indicates an institution is organized as profit-making.

Type. In 1981, the Center for Statistics adopted a new system of classifying institutions according to the number and type of degrees awarded. This information is reviewed annually through the Center for Statistics survey of "Degrees and Other Formal Awards Conferred." An explanation of each category follows:

> *General* — The categories A through D cover institutions that grant more than 25 percent of their degrees at the baccalaureate level or above. Institutions in category E grant 75 percent or more of their awards below the baccalaureate level. Category F is for new institutions.

A. *Doctoral-level Institutions* — characterized by a significant level and breadth of activity in and commitment to doctoral-level education as measured by the number of doctorate recipients and the diversity in doctoral-level program offerings. Included in this category are institutions not considered specialized schools (see category D below). These institutions *must* grant a minimum of 30 doctoral-level degrees; degrees *must* be granted in 3 or more doctoral-level program areas, *or* have an interdisciplinary program at the doctoral level. Included in the counts of doctoral degrees for classification purposes are the following first-professional degrees: M.D., D.D.S., D.O., and D.V.M. All of these are in the health profession program area. One other type of institution is also classified as doctoral: any institution that grants *only* doctorates and still meets all other criteria, except for the number of doctorates.

B. *Comprehensive Institutions* — characterized by diverse postbaccalaureate programs (including first-professional), but not engaged in significant doctoral-level education. Specifically, this category includes institutions where the number of doctoral-level degrees granted is less than 30; *or* fewer than 3 doctoral-level programs are offered. In addition, these institutions *must* grant a minimum of 30 postbaccalaureate degrees *and* either grant degrees in 3 or more postbaccalaureate programs, or have an interdisciplinary program at the postbaccalaureate level.

C. *General Baccalaureate Institutions* — characterized by their emphasis on general undergraduate, baccalaureate-level education. They are not significantly engaged in postbaccalaureate education. Included are institutions where the number of postbaccalaureate degrees granted is less than 30 *or* fewer than 3 postbaccalaureate-level programs are offered *and* either (a) baccalaureate degrees in 3 or more program areas are granted, or (b) a baccalaureate program in interdisciplinary studies is offered.

D. *Specialized Institutions* — baccalaureate or postbaccalaureate institutions characterized by a programmatic emphasis in one area (plus closely related specialties), such as business or engineering. The programmatic emphasis is measured by the percentage of degrees granted in the program area. An institution granting over 60 percent of its degrees in one program area, *or* granting over one-half of its degrees in one program area *and* granting degrees in fewer than five baccalaureate program areas, is considered to be a specialized institution.

E. *2-Year Institutions* — those which confer at least 75 percent of their degrees and awards for work below the bachelor's level.

F. *Newly Added* — institutions that have recently been admitted to the HEGIS universe (not necessarily newly organized). As soon as sufficient data are available on the number and kinds of degrees awarded, these institutions will be classified into one of the other categories.

1983 Enrollment. The total student enrollment in each institution is given as of fall 1983. Undergraduate, graduate, first-professional and unclassified students (full- and part-time) are included. Excluded are: students in noncredit, adult education courses; students taking courses at home by correspondence, radio, or television, when the courses are not creditable toward a degree or other formal award; students enrolled for only short courses; auditors; and students enrolled at branch campuses in foreign countries.

The enrollment figures in this Index were obtained from the survey of "Fall Enrollment in Institutions of Higher Education," conducted in fall 1983 by the Center for Statistics. Data from institutions were edited and checked for consistency. Data for nonrespondent institutions were imputed where possible.

1984-85 Academic Year Charges. Institutions were instructed to provide basic information about tuition and fees, room and board charges for full-time students, as follows:

- Since tuition and required fees and room and board charges are not the same for all students at an institution, charges reported are the typical amount. Optional charges are not included.

- Charges are reported for the academic year — the regular session, generally extending from September to June, usually divided into 2 semesters, 3 quarters, or 2 trimesters.

- If institutions charge different rates based on residency, the in-State charges are used in this listing for undergraduate and graduate students.

- Graduate tuition and fees are for those students who are taking graduate-level courses; they do not include students who are candidates for first-professional degrees such as those in law, medicine, dentistry or theology.

- Room charges are for an academic year, based on sharing a room with one other student.

- Board charges for an academic year are for a typical student. The number of days per week covered by the board charges is also indicated.
